

PENNSYLVANIA YELLOW DOT PROGRAM

The Pennsylvania Yellow Dot Program was created to assist older Pennsylvania's in the "golden hour" of emergency care after a traffic incident where they may not be able to communicate their needs. The yellow dot placed in the rear window of the car alerts first responders that vital information regarding any prescription medications or medical conditions is located in the glove compartment of your vehicle.

The Pennsylvania Yellow Dot Program is a cooperative effort between the Pennsylvania Department of Transportation, Health and Aging; the Pennsylvania State Police; the Pennsylvania Turnpike Commission; and First Responders and local law enforcement.

The packet includes a medical information sheet to be completed and placed in your glove compartment. It also has a space to attach your photo and the yellow dot sticker to place inside the rear window of your vehicle.

For additional information about the Yellow Dot Program, or to request a kit, call 1-877-724-3258 or visit www.YellowDot.pa.gov. The website also lists locations where the kit is available in your area, such as the Armstrong County Area Agency on Aging, 326 S. Water Street, Suite 1, Kittanning, Pa.; or Regional EMS Centers; or PennDOT's Driver's License Centers.

Note: Only 1 folder is needed per vehicle. You can print a medical form out for each individual associated with the same vehicle, and put them in the one folder.
